2' x 8' and 4' x 8' Pressure Sensitive Adhesive (PSA) Veneer – Pre Glued Flexible Veneer

FlexVen™ paperback veneer is the essential choice for any project requiring wood veneer. Stable yet flexible, FlexVen™ is able to bend and conform to tight radii as well as flat surfaces. The FlexVen™ 10 mil backer is very flexible and is a great choice for pressing on contoured or flat surfaces. Pressure sensitive adhesive is an adhesive film applied to the back of flexible veneer sheets. It is often referred to as “Peel and Stick” or “Self Stick” veneer. LISTED PRICES ARE PER SQ. FT. To get the total 2 x 8 sheet price multiply the square foot price by 16. To get total 4 x 8 sheet price multiple the square foot price by 32.

Starting with quality 10 mil wood veneer we make it even simpler by applying a patented 3M™ pressure sensitive adhesive to the back. This "peel and stick" concept for applying veneer is tried and true. For professionals and non-professionals alike, you won't find an easier more trouble free solution to almost any wood veneering project. PSA veneer is ideal for cabinet re-facing, re-doing speaker cabinets and general veneering on a variety of surfaces.

We only use 3M™ adhesive film and have the capability to apply it in house. It is a cinch for us to make any sheet of veneer in our stock a self adhesive veneer sheet. Our 3M™ adhesive is 48 ½" wide so if you need a full 48 inches for your project we got you covered.
